

“This is the model practices have been waiting for...”

–Jeremy Melker, M.D.

The economy and Medicare cuts are impacting many practices. MedIT is subsidizing the cost of top rated Allscripts MyWay EMR/Practice management software package along with training, implementation, hosting and clearing house as part of a our total solution outsourced billing service.\* Our fees are based on our ability to collect on your claims. As your partner, we share the risk. Our average increase in collections is 21%!

We bill from your system acting as your outsourced employee!  
No more faxing and couriers, everything we need to bill is in your software.
